

## TABLE OF CONTENTS

<b>10. Markets and Future Prospects for Cell Therapy .....</b>	<b>5</b>
<b>Introduction .....</b>	<b>5</b>
<b>Methods for estimation of cell therapy markets.....</b>	<b>5</b>
<b>Potential markets for cell therapy.....</b>	<b>6</b>
Markets according to technologies.....	6
Stem cell transplant .....	6
hESC markets.....	6
Blood transfusion market .....	6
Cord blood collection and storage.....	7
Cell therapy and related technologies .....	7
Cell therapy markets according to therapeutic area.....	7
Bone and joint disorders .....	8
Cancer.....	8
Cardiovascular disorders.....	8
Diabetes mellitus .....	9
Liver disorders.....	9
Neurological disorders .....	10
Retinal degenerative diseases market.....	10
Skin and wound care .....	11
Urinary incontinence .....	11
Reconstruction of teeth by stem cell implants.....	11
<b>Market size according to geographical areas .....</b>	<b>11</b>
<b>Unmet market needs in cell therapy .....</b>	<b>12</b>
<b>Drivers of growth of cell therapy markets .....</b>	<b>13</b>
Role of stem cells in regenerative medicine .....	13
Role of cells in markets for artificial organs .....	14
Increase of R&D expense on cell therapy .....	14
Increased used of cell-based drug discovery.....	14
Impact of emerging healthcare trends on cell therapy markets .....	14
<b>Future prospects of cell therapy .....</b>	<b>14</b>
Embryonic stem cell research around the world .....	15
Consortia for ESC research in Europe .....	15
EuroStemCell .....	15
FunGenES .....	16
ESTOOLS .....	17
UK National Stem Cell Network.....	18
Ethical concerns about commercialization of embryonic stem cells .....	18
Education of the physicians .....	18
Public education.....	18
NIH support of stem cell research .....	19
Funding of stem cell research from non-federal sources.....	19
Prospects of venture capital support for stem cell companies.....	21
Cell therapy in the developing countries.....	21
Guidelines for stem cell therapies.....	22
<b>Business strategies.....</b>	<b>23</b>
Formation of networks.....	23
Future market potential of adult vs embryonic stem cells.....	24
<b>11. Companies Involved in Cell Therapy .....</b>	<b>25</b>
<b>Introduction .....</b>	<b>25</b>
<b>Profiles of selected companies.....</b>	<b>27</b>
<b>Collaborations.....</b>	<b>328</b>
<b>12. Academic Institutions .....</b>	<b>338</b>
<b>Introduction .....</b>	<b>338</b>
<b>Stem cell center.....</b>	<b>338</b>
<b>Profiles of institutions .....</b>	<b>339</b>
<b>Collaborations.....</b>	<b>421</b>

### Tables

Table 10-1: Market size according to cell therapy and related technologies 2009-2019.....	6
Table 10-2: Market size according to therapeutic areas for cell therapy 2009-2019 .....	7
Table 10-3: Cell therapy markets for cardiovascular disorders 2009-2019.....	9

Table 10-4: Values of cell therapies for neurological disorders 2009-2019.....	10
Table 10-5: Total cell therapy market according to geographical areas 2009-2019.....	12
Table 10-6: Cord blood market according to geographical areas 2009-2019.....	12
Table 10-7: Stem cells transplant market according to geographical areas 2009-2019 .....	12
Table 11-1: Publicly traded cell therapy companies.....	25
Table 11-2: Selected collaborations of cell therapy companies.....	328
Table 12-1: Therapeutic uses of stem cells .....	346
Table 12-2: Commercial collaborations of academic institutes in the US relevant to stem cells .....	421
